Honestly Greg, it's OCWD staff's call. I'd think you'd want to put the project in the best light to obtain potential funding. If you guys don't think it's a big deal then I'm fine.

Hi Scott,

in regards to the potential of editing the IRWM Plan report, the report has gone to the OCWD board as a draft report for review and also as a final version for adoption.

And the OCWD board adopted it.

The County is also going through its adoption process, as is OCSD.

So i cannot see a way to edit the report at this time.

You could write a letter regarding info you would like to see incorporated into the next version of the report.

Please let me know if you would like to discuss further.

i will be at the ACWA conference this week if you are also there and would like to chat.

Greg

Greg – Thanks. This is the version of the report that I read. Table 2-3 “Targeted future water supplies” omits HB desal despite the fact its found in the MWDOC UWMP Update and the OCWDF Groundwater Plan. The discussion on desal later in the report is incomplete at best. Someone took the time to provide an update on the permitting process but left out any discussion of the relationship between OCWD (i.e., the term sheet and extensive study of financial feasibility and distribution options).

I understand this isn't a planning document and Mike questions the value of having desal mentioned, however, if desal and the HB project are going to be mentioned then the information should be accurate, current and comprehensive. The Ad Hoc cmte has also said they want to give the project the best chance to get state and federal funding (I assume for the distribution system).

Is there time to request edits to the desal potion of this report?

Subject: North and Central OC IRWM Plan

Hi Scott,

Attached is the final version of the plan - this was adopted by the OCWD board in April.

It is a big file (19 megabytes), so please confirm you received this email.

If you have any questions, please let me know.

Greg
